Dear Parent,

NEWINGTON YEAR 11 DESIGN AND TECHNOLOGY VISIT TO ELC

Our students in Year 11 Design and Technology at Newington are starting a project where they are to design and make a product for children between 3 and 5. To enrich this experience and make it a real-world project it is proposed for the eighteen Year 11 students to visit the ELC on three occasions for 30-minute sessions in the next four months. The goal for the first visit would be for the students to observe and interact with the children and their Early Childhood Teachers to gain valuable insights in order to inspire their future designs. The next visit would be to test their early design prototypes and obtain feedback from the children on these prototypes. Finally, the last visit would be to test the students' final products and see how the children interact with their designs in order to evaluate the success of each product.

As a part of the students' data collection to include in their design folios, they would take photos of the children playing. By completing and returning the permission slip you would be consenting to photos being taken of your child for solely educational purposes to be placed in student folio work as a record of design folios. If you have any questions regarding the proposed visits, please contact me.

Yours sincerely

Alexander McGlade

Design and Technology Teacher - Newington College
