

CONCORDIA

# Studio Tactics

JUNE 19 - 26 2025

The 2025 New Artist in Residence is Gemma Smith, a contemporary artist working in both painting and sculpture. Through her explorations of colour theory, pictorial depth, and sculptural form, Smith has developed a body of abstract work that is both playful and serious in the ways in which she investigates representations.

She has been working with three classes of HSC and IB Year 11 students in Concordia Studio. Guided by systems of chance and by gesture, the students have been working collaboratively on large scale painting and also individually on paper works to experiment with non-figurative 2D compositions.

We are proud to present Studio Tactics, an exhibition of artworks made by Year 11 students and Gemma Smith over the course of Term 2, 2025. We look forward to welcoming you to see the work at Concordia Gallery.
