The Robert Walter Storr (ON 1938) Music Scholarship

Music Details

Candidate's instrument/s:

Years of study (private/group):

As a guide, we suggest that candidates for entry into Year 9 or higher should have reached a standard that is equivalent to at least 6th Grade from the Australian Music Examination Board, or 7th Grade from the Royal College of Music, London. It is recognised that not all candidates or their teachers will be familiar with what these grades mean.

Experience

Solo performances

Group performances:

Pre-audition tape (please provide a link to a video file):

Remarks (parents/guardians are invited to comment, if they wish, on any aspect of their son's music education):

Scholarships will be awarded chiefly on the results of the music auditions to be held on 30 and 31 August 2025. However, other factors may play their part if a decision has to be made between two candidates whose musical abilities are nearly identical. Please give details of school achievements over the last three years including prizes, academic awards, presentations, etc. A recent statement from the boy's present school and/or other documentary evidence should be attached.

Other interests (parents are invited to comment on their son's interests in fields other than music, for example, special academic pursuits, art, sport, group activities, etc.):

Do not forget to attach a report from your son's present music teacher or other supporting documents to your email.
